AUTHOR CINDY CAUSEY TO SPEAK ABOUT SAVING THE EARTH

On _____ Cindy Causey, author of *Cherish the Gift: a Congregational Guide to Earth Stewardship* will speak to _____ about ways in which the church can help save the planet.

In the writing of *Cherish the Gift*, Cindy drew on 18 years of experience, serving in virtually every lay position of the medium-size church, from child care to evangelism.

In 1992, on the 20th anniversary of Earth Day, then youth leader, Cindy discovered a complete lack of Christian-based materials concerning the church and the environment. She read and studied and learned all she could, then translated her ideas into projects, lessons, and sermons for her church as well as changes to her life at home. In 1996, the book *Cherish the Gift* was published by Judson Press.

Today it has resurfaced as a call to action as churches, pastors, lay leaders and others discover a renewed interest in environmental stewardship.

Cindy will speak to our group about the current environmental woes facing our earth and concrete ways we as individuals and as the church can affect change in small and large ways.
